Raj,

Can you go to requestit.cat.com and under self-service select "CWS – Request Account"?

Then select "Request for my Individual Secondary Account" and then enter "adminscl"

Let me know if you have any issues.

-Brian

Subject: RE: Regarding cloud access

I've setup Sairaja with Reader & PowerUser in Intranet Sandbox, once he has Admin CWSID I'll add him to poweruser (SecOps)

Respectfully,

Doug

Brian,

You will need to request elevated CWS ID for Sairaja for > reader and sandbox (ex. Chenna's is adminvc2). Jason is working to consolidate down to 1 ID/MFA, starting discussions with security.

Staci,

Request for approval to add Sairaja to same groups as Chenna (I can add him for now, update to admin once setup)

Groups Containing Vemula Chenna:	
Group Name	Group Description
AWS_002710387481_Reader	AWS Account 002710387481 Internet Sandbox Reader
AWS_006172073716_Reader	AWS Account 006172073716 Shared Prod for Reader
AWS_009617208910_Reader	AWS Account 009617208910 Security and Risk Management for Reader

Subject: FW: Regarding cloud access

Doug,
Please provide Sairaja with any cloud access that Chenna has access to? If you need me to request through some other portal, just point me to the place.

Thanks,
Brian

Hi Brian,

Can you please grant the access for all the cloud accounts?

Thanks,
Sairaja Challagulla
